CPN Practice Test: CPN-401

– READ BEFORE YOU BEGIN –

*PNCB does not guarantee compatibility with iPads, iPhones, Kindles, or other devices.
Please visit the Help section of the Learning Center for a list of compatible browsers*

Welcome to the CPN Practice Test: CPN-401, a unique practice testing tool offering 50 multiple-choice questions and a simulated exam experience that closely matches the presentation and structure of the exam.

This module provides exposure to content representing topics on the **CPN exam content outline** (test blueprint).

**Unlimited testing attempts of the same 50 questions are available
to you within your 150 day access period.**

Navigating the Exam

The questions are randomized, and you can skip back and forth between questions. Select the ONE BEST answer of those listed. Grade along the way or choose to wait until you're finished—your choice! Important note: once you choose to "Submit Answer," the item will be graded, you will receive immediate feedback, and you will be unable to change your answer within the current testing attempt.

Exit at any time while taking the module; the module will automatically "bookmark" where you left off. To continue, simply log in and hit RESUME.

Submitting the Exam

Select the "Submit Exam" button on the final review page (you will not be allowed to submit your exam if you have left questions unanswered). After completing all questions, you will immediately see your results - both your final results and your percentage correct within each content area. Make sure to download your personalized reports before logging off for your use in continued learning.

Starting a New Session (once an attempt has been Submitted)

"Start New Session" by clicking on the "CPN Practice Test: CPN-401" link in the left-hand navigation area while the module is launched or by exiting and logging in again.
